

CSE 321– Operating Systems
QUIZ 1, SET-B
Summer Semester – 2022

Grade

Full Name (in Block Letter): _____

ID: _____ **Section:** _____ **Signature:** _____

Marks: 15 points

Time: 30 minutes

Instructions: Answer all questions on the space provided below for each.

Question 1: CO1 (1.5+3 points): Why do we need an operating system in a computer? **Explain** Dual mode hardware protection of Operating System.

Answer:

Question: 2 CO2 (1+2.5 points): Define context switch. Illustrate a diagram of context switching between two processes A and B.

Answer:

Question 3: CO1 (3 points): Today in multi-processing systems, asymmetric and symmetric multiprocessing are used. Write the task of both multiprocessing architecture.

Answer:

Question 4: CO2 (2+2 points): Draw process state diagram. **State** necessary conditions of suspend ready and suspend wait state of process.

Answer:
