CST 309: GLOBAL CITIZENSHIP

Section 1

FINALS

Summer 2026

Online Submission deadline: Final Video Projects: 11.59 PM, 11th September, 2026

Group written scripts: 11.59 PM 6th September, 2026

Script Presentation and Workshop in class on the 6th September, 2026

Mandatory meeting about script outline: In class 1st September, 2026

Interview submission: 11.59 PM, 1st September, 2026

(Video Projects in the [shared folder](#) and Group Script via Turnitin)

(PAY ATTENTION TO THE DEADLINES)

This is a formal take home assignment so I expect you to submit work that is properly formatted and edited. For any written work- Please cite any source you use and use the proper citation method. Plagiarism will not be accepted. AI generated material will not be accepted. AI generated voiceovers are prohibited. While this is a group assignment please note that there is individual tracking so please note the points that are for individual work and for group work. The total points for the finals is 100 and will be converted to 30.

Make a Video Project (Time length - 25 to 30 minutes)

You will have to make a video project on Global Citizenship in Action. You will have to choose a global issue that is linked with two or more [SDGs](#). You will have to analyze global citizenship in action with respect to this global issue. You will have to include an analysis on at least the following aspects: 1) Why is global citizenship required to work towards the alleviation of this issue? 2) How can global citizenship bridge the local and the global with respect to this issue? 3) What kind of impact does this issue have on minority communities (please refer to your midterm research) in terms of citizenship? 4) A small feasible action that can be taken towards achieving a solution. In this discussion you will use concepts you have learnt in the class, readings from the class and independent research. All the members of the group will contribute equally to the project and will be graded accordingly. All group members should have more or less equal time, must be seen at some point during the video project and no AI generated voiceovers are allowed. The more you are able to incorporate a nuanced discussion and be creative in your project the better.

In your video projects pay attention to the following-

- Theories and concepts should be explained and applied in your analysis
- You will have to include a brief discussion of what is global citizenship, your understanding of the community and responses to the questions above
- Assessment of the community needs
 - Use both your research and interviews for this
- Include a brief discussion of the chosen global issue and its link with the SDGs.
 - Use your posters for this
- Explain your feasible action well including a brief impact analysis.
 - In the script, include an explanation of the feasibility. You need not include this in the video project
- All assigned material from class 13 and class 15 must be included with citations both in the script and video project.
- Use multiple forms of media (Videos, photographs, voiceovers, clips of interviews)
- All secondary material must be cited following the correct citation style.

Steps, Times and Breakdown of Points for the Finals

- In the assigned google document for the finals complete the details by 11.59 pm 26th of August, 2026 **(3pts)**
 - Include all your names, the global issue you will analyze (and the SDGs linked), the community you will be addressing for a part of your analysis and division of work (so details of who is responsible for what research and analysis- please ensure everyone has an equal opportunity to demonstrate their individual understanding, analytical skills and engagement with the assigned material)
- In the group document start working on the research, analysis and script- this will be monitored regularly to see individual contributions. I will be looking at the individual research, understanding and analysis in this. Someone who updates this regularly, without using AI and analytically will get higher points than others. Your individual contribution to this document will also impact your individual points in the script and the final video project. Also include a working bibliography in this document. Only updates till the submission of the script will be considered for grading. **(7 pts)**
- The individual homework assignments on SDGs and feasible action will be a part of the individual research. **(10 pts)** (the first one is submitted already and the feasible action is due on the 11.59 pm, 29th of August, 2026 via google classrooms)
- You will conduct preferably 2 (or one if you have permission from me) that you will be able to use in the video project. You cannot complete this without approval for the interview questions. Please ensure that we have 24 hours to give you approval/feedback on your questions. The questions will be sent to us via email. The interview needs to be recorded and uploaded [here](#) This should be 15- 20 mins. This has to be completed by the 1st of September, 2026. **(10 pts)**
- Mandatory meeting about the script outline- in class-6th September, 2026- All members of the group have to be present, and ready to answer any question about the outline. You will need to have a printed copy of the outline (more details the better) **(5 pts)**

- A presentation of the script and main ideas and analysis and the feasible action that you will include in the video project **(10 pts)** 8th September, 2026
- Final Script - submitted via turnitin by any ONE group member by 11.59PM, 8th September, 2026 **(15 pts)** There is no word limit to this but it will be for a 25- 30 minute project. The more detailed this is the better it is. Also this needs to be properly cited with a bibliography
- Final video projects uploaded in the folder- 11th September, 2026 **(40pts)**

Breakdown of Points

Script	
	points
Introduction	1
Community understanding	2
Connecting local issues to global issues (including SDGS)	2
Analysis (correct application & explanation of concepts and correct use of assigned readings)	4
Feasible action (description + feasibility assessment)	5
Citations, coherence, logical flow, details	1
Total	15
Video Project	
Introduction (including explaining what is global citizenship)	5
Community understanding	7
Connecting local issues to global issues (including SDGS)	7
Analysis (correct application and explanation of concepts and correct use of assigned readings)	8
Feasible action (description + feasibility assessment)	8

Citations, coherence, logical flow, audibility, creativity, proper use of charts, clips, and other multimedia	5
Total	40

General Instructions

- Font- Times New Roman, 12 size
- Spacing- Double spaced
- Primary sources (assigned readings) and secondary sources must be cited (verbally in the podcast)
- In text citations are required for the script
- Sources must be either academic or journalistic (print media only and from reputed news sources).
- Must include a bibliography or reference page
- AI generated material (unless permitted) will get reduced points and the whole script/project will be given a zero if AI generated material is over 50%
- Late submissions will not be accepted.
- PLAN and MANAGE your time well. Do not ask for extensions!
