Data storage estimation deals with \_\_\_ ?

☐ Calculating only meta-data to ensure unbiased storage requirements

☐ Overhead, which is calculated based on the initial record number and estimated annual growth

☒ Number of records that database needs to handle from the beginning of the system

☐ None of the above

Submit

You have used 1 of 1 attempt

[Show Answer](#)

### Multiple Choice

2.0/2.0 points (graded)

Which of the following is true for data warehousing?

☐ Used in decision support systems where detailed records are stored

☐ Each department of a large organization maintain its own data warehouse

☐ Large OOP databases are combined to support data warehouse functionalities

☒ Data marts periodically retrieve their data from a larger data collection

☐ All of the above

Submit

You have used 1 of 1 attempt

[Show Answer](#)

### Duplicate of 'Multiple Choice'

0.0/2.0 points (graded)

Which one is the earliest design of database?

☐ logical

☐ Analytical

☐ Conceptual

☒ Physical

☐ None of the above

Submit

You have used 1 of 1 attempt
