

BRAC UNIVERSITY

Department of Computer Science and Engineering

Examination: Quiz

Semester: Summer 2022

Duration: 30 minutes

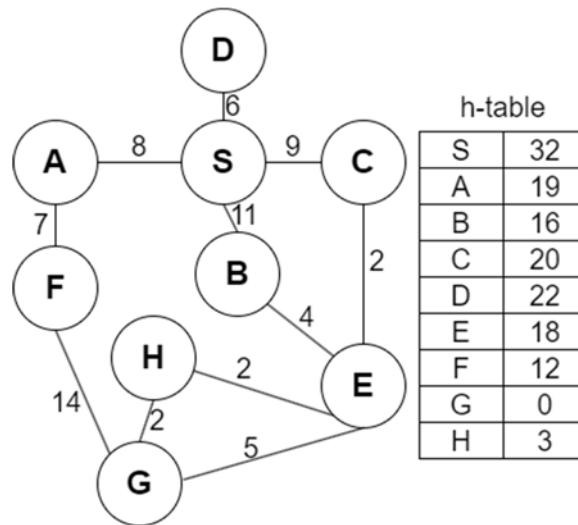

Full Marks: 10

CSE 422: Artificial Intelligence

Answer **Both** the given questions

Name:	ID:	Section:
-------	-----	----------

Question 1 (CO2)

Considering S as the start node and G as the goal node, **apply** A* search on the graph given above. Show full simulation and path calculation. [6]

Question 2 (CO2)

Is A* search algorithm optimal or not? What can you do to make sure that A* does not traverse irrelevant paths in a graph? **Explain** with example. [4]
