

CSE 422: Artificial Intelligence
Brac University

Quiz 01 (SET B)

Full Marks: 10

Time: 45 mins

Name:	ID:	Section:
--------------	------------	-----------------

CO2

4

1. Simulate A* search on the given graph and **deduce** the optimal path to the goal. Also, provide the final total cost of the optimal path. **Here S is the initial node**

A = 9	F = 8
B = 5	G1 = 0
C = 6	G2 = 0
D = 8	G3 = 0
E = 7	S = 12

CO2

2. **Analyze** in short how Simulated Annealing can overcome the issues of Hill Climbing

2

CO2

4

3. **Apply** alpha-beta pruning algorithm in the same tree, mark the pruned branches and calculate the values of nodes.
