

Project 1: UniEats

This is a digital platform for the on-campus restaurant where students can browse the menu, pre-order food, leave reviews, and manage their orders

Features :

1. **View Daily/Weekly Menu** – Browse what's available.
2. **Filter Menu Items by Category** – Snacks, Meals, Drinks, etc.
3. **Pre-order Food** – Schedule a pickup time.
4. **Cancel Pre-orders** – Within the allowed time window.
5. **Rate & Review Food Items** – Based on quality, taste, hygiene.
6. **Submit Feedback or Complaints** – Report poor service or suggestions.
7. **View Order History** – See previous orders with status.
8. **Suggest New Food Items or Dietary Options** – Vegan, gluten-free, etc.
9. **Favorite Items** – Bookmark preferred meals for quick access.
10. **Out-of-Stock Indicator** – Show when an item is unavailable in real-time.
11. **Today's Specials Section-** A separate section to highlight **2–3 special items** for the day
